

SILICOR TECHNOLOGIES, INC.

COMMITTED TO EXCELLENCE, DEDICATED TO OUR CUSTOMERS

Silicor IP Software Features List

Silicor Technologies customers enjoy free software upgrades and 24/7 technical support. Software upgrades can be downloaded from our Silicor Server online. Our hardware platform offers the highest quality components and carries a 3-year warranty.

Our NVR software has the same interface and feature set as our DVR software.

List of IP specific software features:

- Odd Aspect Ratio recording
- IP camera Search on your local area network in minutes
- Support for Streaming Video and Image Mode
- Support for over forty different IP camera manufacturers including the IPIX 360 degree Command View dome camera.
- Support for video servers
- Unlimited resolution
- MJPEG Compression
- Free Software Upgrades
- Link directly through Window Vision to on-line camera page for easy configuration, brightness, contrast, image quality, frame size and frame rates
- Support for PTZ cameras (pan-tilt-zoom, presets and tours)

Future support for our IP Interface includes:

- On board camera motion detection to limit CPU load
- Audio over IP
- Digital IP Inputs and Outputs
- And more...
